Document Output

Save valuable time

Automate your document distribution directly from Microsoft Dynamics 365 Business Central

Send automatically
Ease your workload by configuring to automatically send and/or print out statements at fixed intervals, e.g. once a day

Contact cards
To increase your efficiency, the e-mail templates are linked to Microsoft Dynamics reports, contact cards and recipients

Full control
You have full control of unsent documents. Choose to send via email or in paper form - all at once or selected documents

Templates
Improve your efficiency and productivity with ready-to-use e-mail templates which can be used in automatic emailing

Activity log
Easy for you to keep track of documents and recipients, since all activities are logged

Sign your pdfs
Improve your security and prevent hacker attacks by signing your PDF documents and more

It's About Time
